IDENTITY STATEMENT

Reference:	ICS118
Title:	Commonwealth Telecommunications Organisation
Dates:	1926-1999 [predominantly 1928-1981]
Level:	fonds
Extent and Medium:	c40 boxes (0.47 cubic m)
Name of Creator:	Commonwealth Telecommunications Organisation

CONTEXT

Biographical/Administrative History: The Commonwealth Telecommunications Organisation (CTO) promotes, through collaborative projects, the growth of international telecommunications throughout the Commonwealth. The organisation endeavours to link its commitment to development and training to the benefits attached to the creation and extension of commercial opportunities. It was established following the 1966 Commonwealth Telecommunications Conference and has since witnessed radical technological and commercial changes, most notably the introduction and widespread use of digital technology. A detailed history of the CTO and its predecessors can be found in the introduction to the ICS118 handlist, available in the Library.

CONTENT

Scope and Content: The records of the Commonwealth Telecommunications Organisation reflect the history of Commonwealth co-operation in the field of international telecommunications and comprise the surviving records of the bodies that administered Commonwealth telecommunications relations from 1928 onwards. The documents fall into three broad categories: the annual reports of the administrative body; the minutes, proceedings and memoranda of that body; and the proceedings and minutes of committees and subcommittees appointed by the body. In addition, the collection contains material that was not generated by the incumbent administrative body, but relates to Commonwealth telecommunications during the lifetime of that institution and was presumably retained for use in the course of its activities or for reference purposes. Much of this material relates to the reports and proceedings of the Commonwealth Telecommunication Conferences under whose authority the administrative bodies derived their mandates; these documents are listed under the first series (entitled 'General Documents') within each sub-fonds.

ACCESS AND USE

Language of Scripts: English

System of Arrangement: The material is arranged into five sub-fonds level divisions, listed in chronological order: 1. Imperial Communications Advisory Committee, 1928-1945; 2. Commonwealth Communications Council, 1944-1949; 3. Commonwealth Telecommunications Board, 1949-1969; 4. Commonwealth Telecommunications Organisation (CTO), Commonwealth Telecommunications Council (CTC), and Commonwealth Telecommunications Bureau, 1966-1987; 5. Commonwealth Telecommunications Organisation (CTO), Commonwealth Telecommunications Bureau and the Commonwealth Telecommunications Council (CTC) after 1987. Within each sub-fonds, documents are arranged in series according to record type. Many of the files within each series are bound volumes arranged by year.

Conditions of Access: At least 24 hours notice before a research visit. Open for research. However, access to individual items in the Institute of Commonwealth Studies Library archival collections may be restricted under the Data Protection Act or the Freedom of Information Act. (Records less than ten years old were originally available only with permission from the Commonwealth Telecommunications Organisation; as of 1 January 2006 the whole of this deposit is now more than ten years old).

Conditions of Reproduction: A photocopying service is available at the discretion of the Library staff. Copies are supplied solely for research and private study. Requests to publish, or to quote from, original material should be submitted to the Information Resources Manager.
